Veronica Lake: *One of the most important things you can do for your aging skin is to use antioxidants as a regular treatment. Not only do they prevent aging but they improve your skins texture and tone. The Veronica Lake is a blend of grape seed extracts, resveratrol, milk acids, and other nutrient-building ingredients that help protect your skin against the damages of free radicals 85*

Rita Hayworth: *This is your go to facial when you have an event or a special night on the town. We will start your transformation by a Dermaplaning treatment removing all the fine peach fuzz. Then a mild enzyme and an amazing hydrating mask. With the gentle exfoliation and deep hydration these treatments provide your skin will be baby soft.
